

Black Cab Mounting Plate, Fx1, Fx2, Fx3, Fx4.

Back View, showing 20 pin power connector.

Front View

Front View with Viking 5 attached

We make 3 types of this mounting plate, with 3 different prices.

Fx4 A: all lamp drivers + printer & data outputs.

Fx4 B: all lamp drivers.

Fx4 C: with just the for-hire lamp driver.

This mounting plate fits into the hole above the cabs clock and plugs onto the 20 pin connector, spring clips slide across to lock the back plate into place, the Viking 5 can now be fitted to the back plate and sealed to it, so the Viking 5 or the back plate cannot be removed without breaking the seal.
